Rock Garden Plants

Prices — We invite comparison of prices. We do not claim to have the lowest prices nor do we desire that doubtful honor. We carry a large variety of plants and give service of the kind you will enjoy a second time.

Single plant price may be reckoned as one-tenth of the dozen price. Dozen prices pertain to orders for six or more of any one variety.

Many varieties are not listed due to the small amount of them on hand. A trip to our gardens will well repay you.

Mail Orders must be accompanied by cash. If you desire plants sent by parcel post, add fifteen per cent of order value to your remittance. Otherwise, the plants will be sent by express collect.

To Reach Our Place. Visitors coming from Boston should take the Fellsway to Stoneham, thence on the Wakefield road about one mile. Coming from the North Shore, come through South Lynnfield. Coming from the north, take the road to Reading from either Lowell or Lawrence; from Reading take the Quannapowitt Lake road to Wakefield, thence about one mile on the Stoneham road. Visitors coming by train will find the following stations about equi-distant from our place: Wakefield Junction, Wakefield Upper Station and Farm Hill (Stoneham). We are on Route 128 about half-way between Wakefield and Stoneham Squares.
